Student Reviews

This program completely changed the way I understand global logistics and sustainability. The mix of supply chain analytics, project work, and real company visits helped me connect theory with practice. Studying in Paris-La Défense was a huge advantage — we were literally surrounded by major corporates. I secured my internship in procurement within two months.

Eishvak Sengupta

Excelia's MSc in Supply Chain Management is very hands-on. Our professors brought real cases from their careers in logistics, retail, and manufacturing, which made the classes practical and engaging. The sustainability angle was especially powerful — I now feel confident working in companies that are transitioning to greener supply chains. The Talent & Career Centre was incredibly supportive throughout.

Piyush Arora

What I appreciated most was the international diversity in the classroom. We were a small group from different countries, and every project felt like a real-world global collaboration. The internship requirement helped me build strong industry experience, and I ended up getting a full-time offer from the same company. Excelia was the perfect launchpad for my supply chain career.
